BioDisk

www.hypertec.co.uk

Product Overview

The BioDisk is a USB 2.0 biometric flash drive designed to simply and securely store and transfer files.

It utilises the latest biometric fingerprint recognition technology to enable only authorised users to gain access to the files stored on it .

Additional security is offered by the on-board SecretZip encryption software to provide further peace of mind. Once again, finger print recognition is required to access the encrypted files.

Features

- Supplied with Data Synchronisation, PC Lock, Standalone Mail client and SecretZip Encryption software.
- Includes extension cable and neck strap
- Available with customer branding if required, please ask for further information
- Finger print recognition protected data access and protection
- Simple Finger print enrollment
- LED indicator - shows when the BioDisk is in use
- Write / delete protection switch
- Hot Plug & Play - enables you to install/uninstall the HyperDrive at any time.
- USB 1.1 compatible (however please note that using a USB 2.0 HyperDrive in a USB 1.1 device will only deliver USB 1.1 performance)
- Available in storage capacities of 128MB up to 1GB
- OS Support for Windows 2000/XP
- Permits up to 10 enrolled finger prints
- 3 year warranty

Specification

Dimensions:	76mm x 22mm x 9mm (L x W x H)
Weight:	22g
Erase Cycle:	1,000,000 times
Data retention time:	10 years +
Read transfer:	7MB / second
Write transfer:	2.5 - 4MB / second
Power consumption (when in use):	<145mA
Sensor Area:	192 x 8, 363 dots/inch
Vibration:	15G peak to peak max
Maximum Shock Resistance:	1000G

Part Codes

256MB HyperDrive: HYFLUSB05256
512MB HyperDrive: HYFLUSB05512
1GB HyperDrive: HYFLUSB051GB
